

ABOUT CAPE SPC

CAPE SPC is an experienced team of bedbug technicians based in the North West. We provide discreet and rigorous canine-assisted bedbug inspection and treatment services for a wide range of national clients from hotels to care homes nationwide.

HOW WE WORK

Our teams of highly-trained professionals can each search up to 50 units per day. Because our dogs are trained specifically to distinguish between dead and live bugs they can detect them in locations that the human eye can often miss. If bedbugs are detected, we deliver targeted and effective treatment using a three-phase heat-based process, which combines steamers, Infrared Heat Bubbles, and a non-biocidal spray.

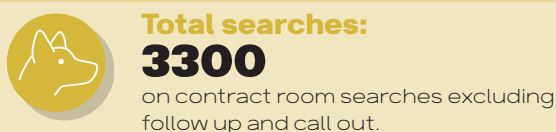

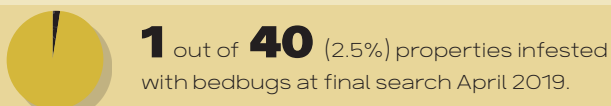

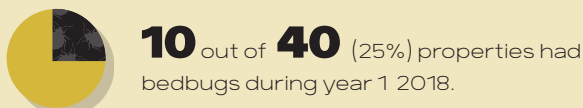

WHY USE CAPE SPC?

- ✓ **Value for money** – choose from proactive and reactive contracts tailored to your organisation
- ✓ **Experienced professionals** – we're the only UK company with British Pest Control Association Trained Bedbug Technicians who are dual qualified dog trainers
- ✓ **Fast and accurate** – rigorous detection allows you to detect infestations early
- ✓ **Environmentally friendly** – we pride ourselves on being able to clear infestations with entirely non-toxic methods
- ✓ **Proven results** – everything you need for complete peace of mind
